## CEASE HARASSMENT & DISMISSAL

CR-21-01407:

**1. You cannot take people to jail for filming Glik v. Cunniffe, 655 F. 3d 78 (1st Cir. 2011). Schutze Porter was no longer engaged in a traffic stop. I made no threats. I used no weapons. I did not block or obstruct him. He did not hang on the door. He shouldn't have been extorting people to begin with, laundering it through the General Fund so they can create more police positions and buy more artillery to dominate us with: <http://dx.doi.org/10.13140/RG.2.2.29926.23364> ( <https://www.researchgate.net/publication/379022073> Maine Police Extort Wages For the State Launder It Through the General Fund Punish People When They Don't Pay and Then Call It 'Protection' )** Locking up and killing conscientious objectors doesn't make you correct or society safe. Those things are *irrefutable* as are two other major issues about the original incident but I cannot put them in this motion as robed authority never rules in my favor but in the favor of their mindless, militant, nationalist stormtroopers; it would give the State time to fabricate an explanation. When challenged on the spot in trial, it's much more difficult to lie. When you refuse to dismiss these cases, it will give the State time to lie about things. If you dismissed these cases it wouldn't matter that the State is lying. You are not separate from the State, I am just referring to the prosecution in this instance. This is a planet, you cannot rationally demand I submit to authoritarian abuse just because the mindless, militant tool has nationalist symbolism on his shirt. Too many people are harmed and die at your enforcers' hands, even those that submit to their authoritarian abuse, with judges backing it. You are the social threat. Your Blue Stripe Bandits are the social threat. This is Planet Earth, not Planet America no matter how many bases your Green Stripe Globetrotters have or Air BnB in other countries. Your daily behaviors and your corporate construct create the social problems, then you punish people for the wide range of guaranteed resulting behaviors while living in luxury as a result. Nice business model. You get to use your victims as excuse. I'm glad I am not you. I am existentially aware and can look myself in the mirror. Your flag doctrine and groveling by subordinates allow you to ignore what you *should* see when you look into the mirror. Introspection is not for the weak-minded. One of my LinkedIn talks might help facilitate reflection, but I doubt it: <https://www.youtube.com/watch?v=DD3E0XR0K-Y>

**2. Intimidation/Coercion by a judge(*supposedly an unbiased arbiter in your adversarial courts*) to accept a plea deal.** The governor's sister, Judge Nancy Mills, said if I get convicted I am getting years and years, consecutively: <https://www.youtube.com/watch?v=BzjT-tPOuJs> The Mills have their own personal police force(EPU, a sector of Maine State Police). She is not going to undermine the employment of their bag/buttonmen when she profits so greedily from it:

**3. Currently, police have an injunction order against me yet are permitted to just stop at my residence for no reason to talk about whatever: <https://www.youtube.com/shorts/o1C-vRIAFbQ>**

Police are permitted to create unnecessary traffic hazards to harass me riding my bicycle to stop and ask me if I want their empty bottle after they just extorted wages from someone else(too lazy to throw it away, but pretending to help a different lower tax bracket person with \$.05), and police are permitted to have their UPST fanbois call me and beg for federal debt credits as if the extorted wages of citizens in traffic aren't enough. If police were so afraid of me, you'd think they would stay away from me. Yet, for some reason local boots just keep showing up out of nowhere instigating interaction. To quote police dispatch, "*We all know who you are...we've all seen your social media...we know what you stand for*" yet Schutze Hood tells the media they have no idea who I am.

**4. This paragraph shows police encourage me to commit violence.** Varnell and I had a common interest in cybersecurity research, but he decides he wants to resolve society's issues by blowing up people that are also victim of your system. You cannot commit violence on others for how you think the world should be, even though police do this daily. I did not get or ask for anything for my information. I recorded the agents discussing killing him and offering to let me "*beat the fuck out of him*" <https://www.tiktok.com/@sixie6e/video/7191523163640040750> American police operate with impunity considering themselves heroic victims citing the Nuremberg Defense. They destroy lives and then do photoshoots with puppies & children to gain public sentiment(while killing 10,000+ of our puppies annually [https://scholars.unh.edu/unh\\_lr/vol17/iss1/18/](https://scholars.unh.edu/unh_lr/vol17/iss1/18/)). Image & symbolism over substance. Symbolism meant to invoke emotion & silence logic to get people to group up behind socially destructive garbage. Neither school, workplace, nor domestic violence will cease under your authoritarian, for profit, corporate system of resource competition enforced by police for State gain. My position has simply been: leave me alone, leave life alone, stop hurting people.

**5. In efforts to declare me incompetent, Maine State Forensics said that I made calls that I did not make and said I said things that I did not, putting gossip in legal paperwork. This would mean incarceration indefinitely without trial as long as one of your corporate whitecoats continues to sign off on the incompetency label.** You have delusional humans with authority to lock up other humans, based on the delusional person's perception of the other person's mental health. That is

frightening to anyone that understands history. See: Punitive Psychiatry, Abuse of Psychiatry, Schoolcraft. <https://original.newsbreak.com/@brent-elisens-1811115/3282755137501-hacker-charged-by-police-for-resisting-abuse-of-authority-controls-anger-when-challenging-court> The same false report was used in my SSA hearing as well. I try to get my attorneys to challenge it but the first backed MSF [https://www.youtube.com/shorts/mxJJSikIl\\_g](https://www.youtube.com/shorts/mxJJSikIl_g), the next pushed for plea deals and doesn't understand words but identifies as them: <https://www.youtube.com/watch?v=rkGL3dzl0Dk>, the current attorney just ignores my request to address it, as does every single judge in every hearing I have had since:

*Venue:* The ancient fallacy of Venue, a corrupt argument from kairos, falsely and arbitrarily invalidates an otherwise-valid argument or piece of evidence because it is supposedly offered in the wrong place, at the wrong moment or in an inappropriate court, medium or forum. According to PhD student Amanda Thran, "Quite often, people will say to me in person that Facebook, Twitter, etc. are 'not the right forums' for discussing politically and socially sensitive issues. ... In this same vein, I've also encountered the following argument: 'Facebook, which is used for sharing wedding, baby, and pet photos, is an inappropriate place for political discourse; people don't wish to be burdened with that when they log in.' In my experience, this line of reasoning is most often employed (and abused) to shut down a conversation when one feels they are losing it. Ironically, I have seen it used when the argument has already been transpiring on the platform [in] an already lengthy discussion." See also Disciplinary Blinders.

My attorneys and the judges refuse to address criminal and other unethical behavior by State officials because of it not being what the hearing is for but they never schedule a hearing to address the problems. In fact, they *send me back to the same people*. *Time and place* is their 'argument' but *there is never a time and place*.

**6. Evaluation pending, I was offered another plea deal even though a section I would have to sign has some variation of "I am of sound mind and not being coerced":**

[https://www.youtube.com/shorts/pT\\_oHRL4Cyc](https://www.youtube.com/shorts/pT_oHRL4Cyc) Had I accepted the deal, not only would my word have been accepted that I'm of sound mind, but you wealthy suits would have used that as 'justification' for bail revocation. Your organization fits every element under your own RICO Act. For example, pay to go free. That's kidnapping for ransom. Your organization forces people to exist and cope in certain ways then you label them criminals/crazy to ostracize them from their peers, making them easy targets for your abusive, authoritarian garbage.

**7. Authoritarian abuse is when we must comply with State directives no matter how arbitrary, destructive, or oppressive otherwise we get a cage or death.** What a robed authority says goes even when they are wrong and is enforced by militant nationalists that fancy themselves heroes for clocking in to target & exploit lower tax bracket people. My suits against suits are dismissed with unrelated wording, no wording at all, or for not paying the State even more federal debt credits that I do not have. When a robed authority's judgment is in favor for the actual victim, justice is often just tossing them a pile of the taxed wages of their peers. That is not justice. Freeing someone after false imprisonment is not justice. It doesn't take that injustice away or stop it from happening to the next person. Justice is a lucrative misnomer for State dispensed vengeance. *War on the poor*. Hopefully, you've heard of it:

CR-22-01027:

1. **The redneck next to me in the forest cut all of his trees up to my property line.** Sold them for a cheap pile of federal debt credits, turning the landscape into a scar, a scab. The amount of life they destroyed [https://www.youtube.com/watch?v=YLKL9\\_VI2FI](https://www.youtube.com/watch?v=YLKL9_VI2FI), he claimed it was to let in light. The noise was...if you also have PTSD...then you know. He then called the police on me...for noise: "06:38:11 06/03/22 - Richmond, T - Caller reporting his neighbor is standing on the property line yelling at his workers...Not being physical, no weapons on him." I was yelling because of their ecokilling machines. Then they were back at 5am. Schutze Martin didn't like being called a militant enforcer enforcing double standards. For me telling Schutze Martin this(because he was the same boot from the call the day previous), I was arrested for 'bail violation'. **I hurt no one. Did nothing harmful to life. Threatened no one. Wasted no social resources. I went to jail. Oh, such heroes. Had I filed a report on my neighbor, I wouldn't have gone to jail.** This was an ongoing situation, so to say calling the same boot the very next morning to explain how they are the noise problem while they are claiming I am, is an abuse of power by the nationalist gang that is labeled victim in case **CR-21-01407**, they were just getting petty revenge. Also refer to **section 3** above.

CR-23-2080:

1. **Maine Instrument Flight, UMaine(even with their Climate Change Institute), American Classic Flying Club do laps over my residence intentionally, sometimes 675ft in the air, and lately even more so, trying to bait me into violating the conditions of your irrational, authoritarian court** <https://brentelisens.substack.com/p/irrational-state-the-us-government> **that champions pretend victims. These and other flight corporations do laps over our communities daily.** Their behaviors are not beneficial [https://www.stripes.com/branches/air\\_force/2023-08-04/air-force-flies-plane-ai-10942189.html](https://www.stripes.com/branches/air_force/2023-08-04/air-force-flies-plane-ai-10942189.html) to anyone but themselves and are wholly destructive, socially and environmentally. The

only 'benefit' is being able to 'afford' to fill their ecokilling tanks so they can keep doing it. Your pyramid scheme economy is oppressive(*you force us into it or we don't get basic needs and we aren't able to obtain them ourselves as your corporations 'own' all the resources*), socially divisive, and the planet does not function based on it. **The Law of Conservation of Mass is important. Resources are not synergistic. Junk cognition is junk cognition no matter how many flags, boots, voters, or attorney scribbles support your stance.** Not only do I have videos, but the flight history is readily available online. FSDO and other government agencies defend corporate interest, not what is 'right' or 'wrong' even though these flight corporations violate your version of 'right' and 'wrong' based on your precious, wealthy suit scribbblings such as 14 CFR § 91.119 and <https://www.epa.gov/clean-air-act-overview/clean-air-act-title-iv-noise-pollution> They destroy the environment and call it a 'hobby'. They destroy ecosystems and call it a 'living'. Much like your court does with so much paperwork, building maintenance, vehicles etc. Michael Walker of MIF stalks my social media almost daily. Social media platforms tell you who is viewing your videos. I screenrecorded it and posted it, then it told on him again by the absence of his name anywhere after blocking me. Fake profiles are being made by those feigning harassment such as "*brentelisensisgay*". Micheal Walker lied worse than his coworkers. I am not the only one that has issue with these aircraft. Me: "Will you stop doing laps over our community every day?"

MIF:

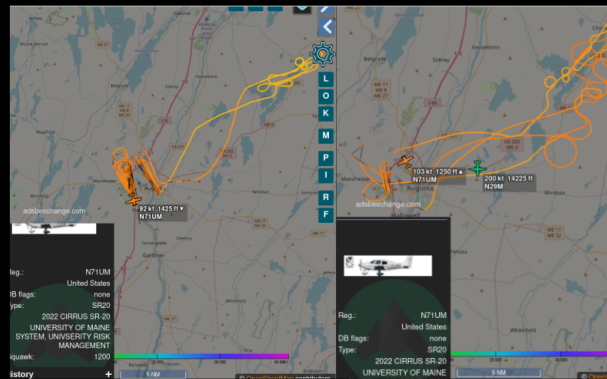

"Best I can do is ecosystem degradation, noise, blue collar doctrine, lies in legal paperwork, and flag waving."

## CR-24-DIRTBISCUIT:

**1. For the past two years I have been harassed in traffic by rednecks in trucks.** They do not like environmentalists, they do not like bicycles on what they consider *their* travel path. They harass me if I go on the shoulder, if I don't (forcing me off the road onto the shoulder is a violation of wealthy attorney scribblings as are burnouts, smokeouts, rev limiter hits, etc), if I go with traffic or against it. I have extensive video showing this and have kept my attorney updated with how often it still happens: almost every single time I go out. They also harass me at my residence. Residence is supposed to be a sanctuary, correct? That's why I moved out to the woods in the first place! Planes, loggers, and trucks. I have tried yelling, I have tried an airhorn (expensive, ecokilling, and ineffective), etc. In fact, MSP just responded to an incident where a hillbilly in his truck harassed me then tried to play the victim afterwards. I am being charged for throwing a dirt biscuit at a death machine that kills more than guns? The same redneck from this case still harasses me in traffic when he sees me, even *after* this incident. The only reason I was charged was because the hillbilly wanted me to admit to an order of events that didn't happen. Had I just said, "yes" I would not have been charged. Think about that. I refused to bow before him, so now he demands you send me to jail and I give you both money? Nice. Look at you go! Do you sincerely suggest I call police almost every single time I go out and say, "*they smoked me out, honked, pretended to hit me*". That is a waste of social resources. It also does not stop the other ones.

You cannot force me to do socially or environmentally destructive things such as drive, tolerate harassment, or send militant nationalists after people to exploit/kill them.

*“Oh, how just the law is! Do your destructive behaviors, just do them within wealthy attorney scribblings!”* The depraved things that have been legal throughout American history, using the law as conscience is *severely* irrational and causes *severe* suffering for others, while you pretend that alleviating that suffering is your goal. I value life more than my own, flag worshipers do not and their daily behaviors show this. My books remain no matter what you have your mindless enforcers do to me with your system, so may as well get your petty, vindictive scribbles in. **I demand a paragraph by paragraph attempt at a refutation to these grievances.** If you refuse to file this, you are blatantly refusing to even *acknowledge* valid grievances against you. I bet your bald eagle phallus polishing cheeks that you will use any available system wording to do anything other than attempt to refute these things. You will find *some* scribblings, *somewhere*, that say you don’t have to even try, especially being that this atrocious, American system is your moral compass. **You don’t value life, you only pretend to.**
