Michael Vincent Emery, 64

BACKSTORY: **Nov/Dec 2017** Steve Cordell Jr lives at and is the owner of Waterline Marina where the pedophile Emery[photo above], Aaron Rickey Rider, Jeff Gross, and myself also lived. Tom Marx bought my boat engine from me, Charn Cardell is Tom's sometimes girlfriend. I worked for Michael Vincent Emery at his shop in Palm Bay and on his boat in Melbourne. He started talking that pedophile depravity so I recorded him.

Aware of my computer proficiency he asked me in not so many words to help him search for child porn where he wouldn't get caught. H3e equates viewing child porn to writing a bad check, saying frequency is what gets you caught. I brought the tapes of him to Aaron Rickey Rider and Jeff Gross. I was friends with Aaron and Jeff both. Aaron works for Steve and Jeff rents a special building on a different section of the property. All of them give Steve hefty dollars or the labor equivalent. They said to bring the recordings to Steve. He plays it down to dismiss it and says, '*it's locker room talk*' but those funds are why.

more manipulation of the system by emery

Steve gets extra money off the books from Emery for as Emery put it, 'to be left alone'. Jeff Gross and Aaron Rider quickly adopt the floating trailer park narrative and tell me to leave it alone. It isn't worth the drama to prevent emery from being able to operate. I quit and demanded my last paycheck (\$500) from Emery. I reported him to NCMEC and the police and told him I was doing so. Being that I told him to give me my wages and that I was reporting him, in the same text, he tried to play the victim and filed extortion(felony that gets a person <= 15 years in state prison). I stayed at Tom's house one night and Charn popped up like a Viagra flavored Toaster Streudel. She made up a story said I hit her and threatened her but I know what I'm doing. I recorded her presence. I would have been arrested had I done that garbage. Tom and Charn are hospice workers. Their patients are their easy targets. Charn plays games with tom using the residents. Neglectful games. Tom was/is Charn's supervisor and the goal was to see if he could catch the neglect before shift change. This is directly from Tom's mouth. I got served with injunctions from Emery and Charn Cardell. She states in the recording she is going to get everyone together and get rid of me. Tom who did not know I was videoing him(but said it was okay after)[explained the entire situation to me](#). Tom then went to court with Charn and Emery because she would put another charge on him if he didn't – [hearing is here\(41 min\)](#). In the hearing I asked Tom if he texted my mother about his Schizoaffective friend(Charn) and he said '*no, no I did not!*' (see screenshot above).

He claimed I ruined the relationship with his grandchildren. He said it cost him a lot of money. He saw my family and tried to extort them. It did not go over well.

The end 'resolution' is I accept a plea deal where I don't come back to Florida for one year. The charge was amended to a misdemeanor **interception of communication** and I received no probation, no jail time. well, no jail time except the 2 weeks in that 'U.S. Corrections' schutze transport.
