## Half of People Killed by Police Have a Disability: Report

Almost half of the people who die at the hands of police have some kind of disability, according to a new report, as officers are often drawn into emergencies where urgent care may be more appropriate than lethal force.

RECENT police brutality enforcing the petty, often arbitrary wording of rich politicians

By their own rich masters' wording, American police fit every element for being charged under their RICO Act. For example, extortion of your hourly wages called *protection*, then punishing you when you can't pay is organized crime behavior <https://www.mainelegislature.org/legis/statutes/17-a/title17-Asec355.html> The first speeding ticket was in 1904. It doesn't stop speeding, it just generates revenue for police. The media helps mask it pretending only 6% goes to 'court stuff' when in reality, half of it goes to creating more police positions after passing through the General Fund. They are *stealing from us to fund themselves* to hire more of themselves to steal from us to hire more of themselves to steal from us to hire more of themselves, slowly a police state constructed:

The Louisiana Inspector General's Office arrested the top two officers of the Henderson Police Department on Friday following a yearlong investigation into an illegal traffic citation quota system paid for through state grant dollars, according to affidavits filed in the St. Martin Parish Courthouse.

## Taxation by Citation? Exploring Local Governments' Revenue Motive for Traffic Fines

Anecdotal evidence suggests that local governments may have a revenue motive for traffic fines, beyond public safety concerns. Using California's county-level data over a 12-year period, this article shows that counties increased per capita traffic fines by 40 to 42 cents...

They cause the people they claim to protect society from, while also exploiting and dominating that same society, dividing the population, generating control and revenue for wealthy suits. Their depraved behavior cannot continue but begging their masters doesn't work and they couldn't physically make them stop, even if they wanted to. We are trapped by American police and at any time, any one of us, could be executed in the street for a militant system enforcer's obscene authority or mental/emotional state. <https://academic.oup.com/policing/article/15/3/1665/6375703> Shootings by police are increasing yet less are being reported by police departments to their masters.

Justice is a lucrative misnomer for state sanctioned vengeance. Trial usually isn't right vs wrong, guilt vs innocence. It is who can manipulate the jury the best. Knowing that jurors are notorious for ABSURD biases <https://pubmed.ncbi.nlm.nih.gov/35175157> and that robed tyrants can always find

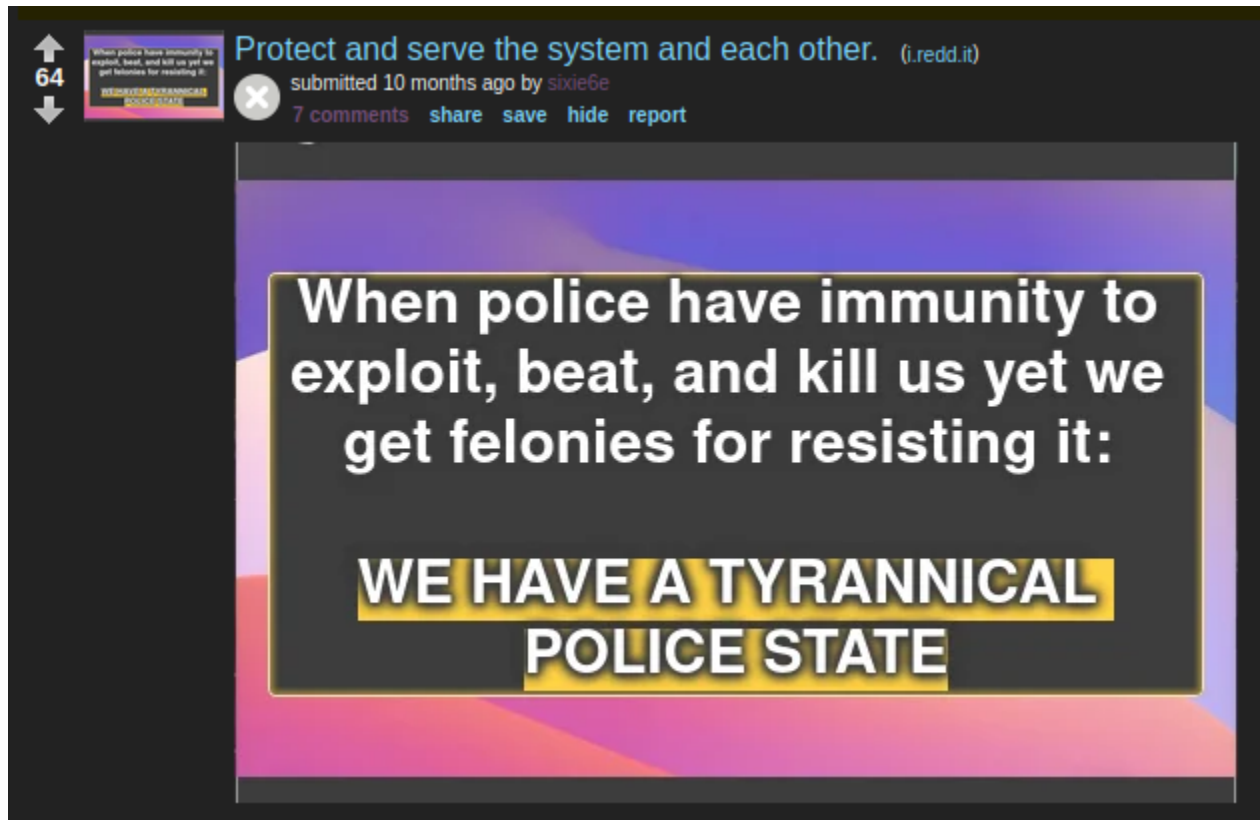

centuries old wording to 'justify' unjust decisions as if it makes them existentially valid(or they can just be emotional from having not eaten in a while <https://www.scientificamerican.com/article/lunchtime-leniency>), makes eating a 'loss' easier. I resisted authoritarian abuse and violence while those around me remained compliant and even begged for it. That is something that I can live with no matter the outcome. That is something I can be proud of.

If the button fits,

In January 2021, I was walking home from my 7 day per week job. American police stopped and jumped me 3 on 1 for not using a sidewalk on a street with no sidewalk: <https://www.tiktok.com/@sixie6e/video/7178950341675814190> I dropped the charges because any compensation would come from the stolen wages of *others they trample on*. Some months later I was filming Maine State Police extorting hourly employees in traffic. 3 on 1 against me, I now have three counts of defending myself from being killed or kidnapped for ransom(bail) by a system enforcing, Blueshirt road pirate. They call it assault on an officer and resisting nationalist, militant, stormtrooper orders: <https://www.tiktok.com/@jelliibeana/video/7177490952146275626> I have been policing police for years, Schutze Porter is the first one to get tough and take me to jail for filming: <https://www.youtube.com/shorts/e-JsxKKrFEA> **We have a right to film police and a right to defend ourselves and others from violence.** Rich suits scribbling twisted definitions to protect their organization does not excuse the violence and suffering police enforce, often gladly. They think a badge, gun, uniform, vehicle, strength in numbers, and permission from a robed/suited master gives them the right to exploit, beat, and kill others. I went to jail on 06/04/22 for calling police militant and saying they enforce a double standard. No crimes, no victims, no threats, no violence, no nothing, just a Nazi with hurt feelings abusing his power: <https://www.tiktok.com/@sixie6e/video>

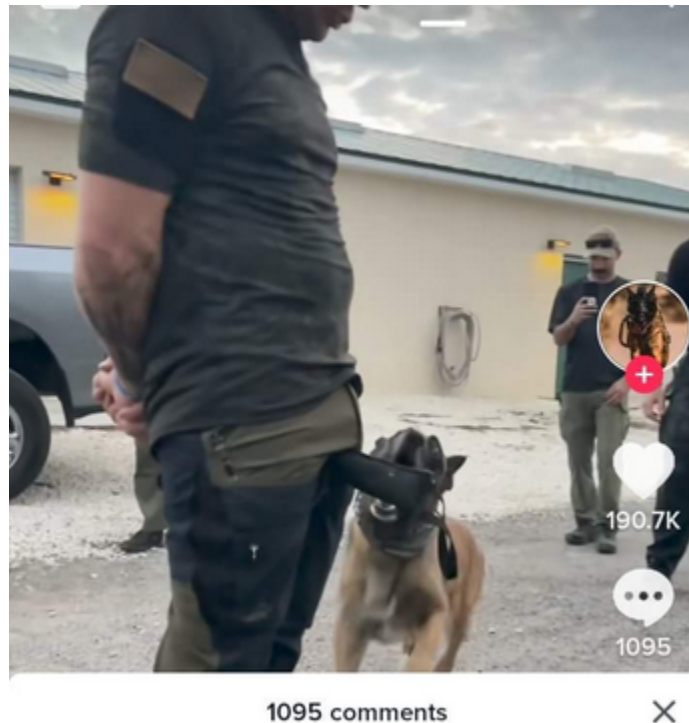

If I hadn't been recording, Maine State Forensics Forensic Psychologist Ann LeBlanc's lies in legal paperwork could have put me in a penal puzzle factory for life: <https://dockets.justia.com/docket/maine/medce/1:2022cv00387/62937> A gowned tyrant will still probably find some unrelated to the situation, centuries old wording to protect his fellow statist employee even though there are 24/7 recordings with metadata. When people have valid grievance and the State cannot defend its actions, it resorts to labeling the challenger crazy/incompetent/insane/deranged/etc: <https://distherapy.altervista.org/state-abuse-of-psychiatry/>

We are trapped by american police and at any time, any one of us, could be executed in the street for the arbitrary wording of wealthy politicians striving to maintain that wealth and control, for being a hue darker, for being afraid, for cigarettes, or for just existing. We have to look out for each other because police have proudly chosen corporations and politicians(those dependent on our social strife/division). I am not suggesting vigilante behavior. I am suggesting moral human behavior. Don't let bad things happen to others. You have to learn to value the existence of even those you do not like – or we will not make it. They are enforcing exploitative & existentially invalid policies with violence. Please, work out your differences and stop calling the Black/Brown /Blueshirts to come lock up or kill someone that suffering internally and has trouble coping/expressing. I witnessed de-escalation happen in person. It works and the person doesn't end up in a box with their family being extorted by JPay, GTEL, SecurusTech, Aramark, Tiger, etc for food and to be able to speak to their loved ones.

Most people that side with me, that understand why police are being policed, and that want me at the stops of Tyre Nichols, Enzo, Zachary Hammond, etc are the lower classes and/or people that have been victimized by the system/police/canines. Those canines are a severe, depraved indifference problem and a brutal social threat that can refuse orders:

<https://www.themarshallproject.org/2020/10/15/mauled-when-police-dogs-are-weapons> Police K9's are a problem being used to maul people for petty, often arbitrary wording of rich politicians.

Most Blue Stripe Bandit groupies are white, middle/upper class, and usually have friends/family that are Blue Stripe Bandits. They call people criminals/crazy and think police should kill them for challenging their licensed depravity and system-wide tyranny. Lock up, kill, and silence those with valid grievance about state/system enforcer brutalities. Nothing Nazi about that. Of course anyone that challenges state tyranny and this non-sustainable, corporate, financial construct is either crazy or criminal. That way they can be thrown into a facility with the manufactured consent of all of those that still beg rich masters to solve social issues. [https://en.wikipedia.org/wiki/Political\\_abuse\\_of\\_psychiatry](https://en.wikipedia.org/wiki/Political_abuse_of_psychiatry)

The state forces people to exist irrationally, miserably then calls them criminals for adapting, coping, or falling apart. The American 'crime' 'industry' generates more revenue than the combined GDP of 133 countries. Prison bed contracts demand 95-100% occupancy. We are a commodity exploited, a product traded. This is no existence.
